[www.cleverq.de](http://www.cleverq.de)

**This module allows you to automatically assign appointments to your customers without additional phone calls or annoying e-mail correspondence.**

**All you have to do is enter predefined office hours, which customers can choose freely in the app.**

**| Simple handling for your customers**

**| Minimal communication effort**

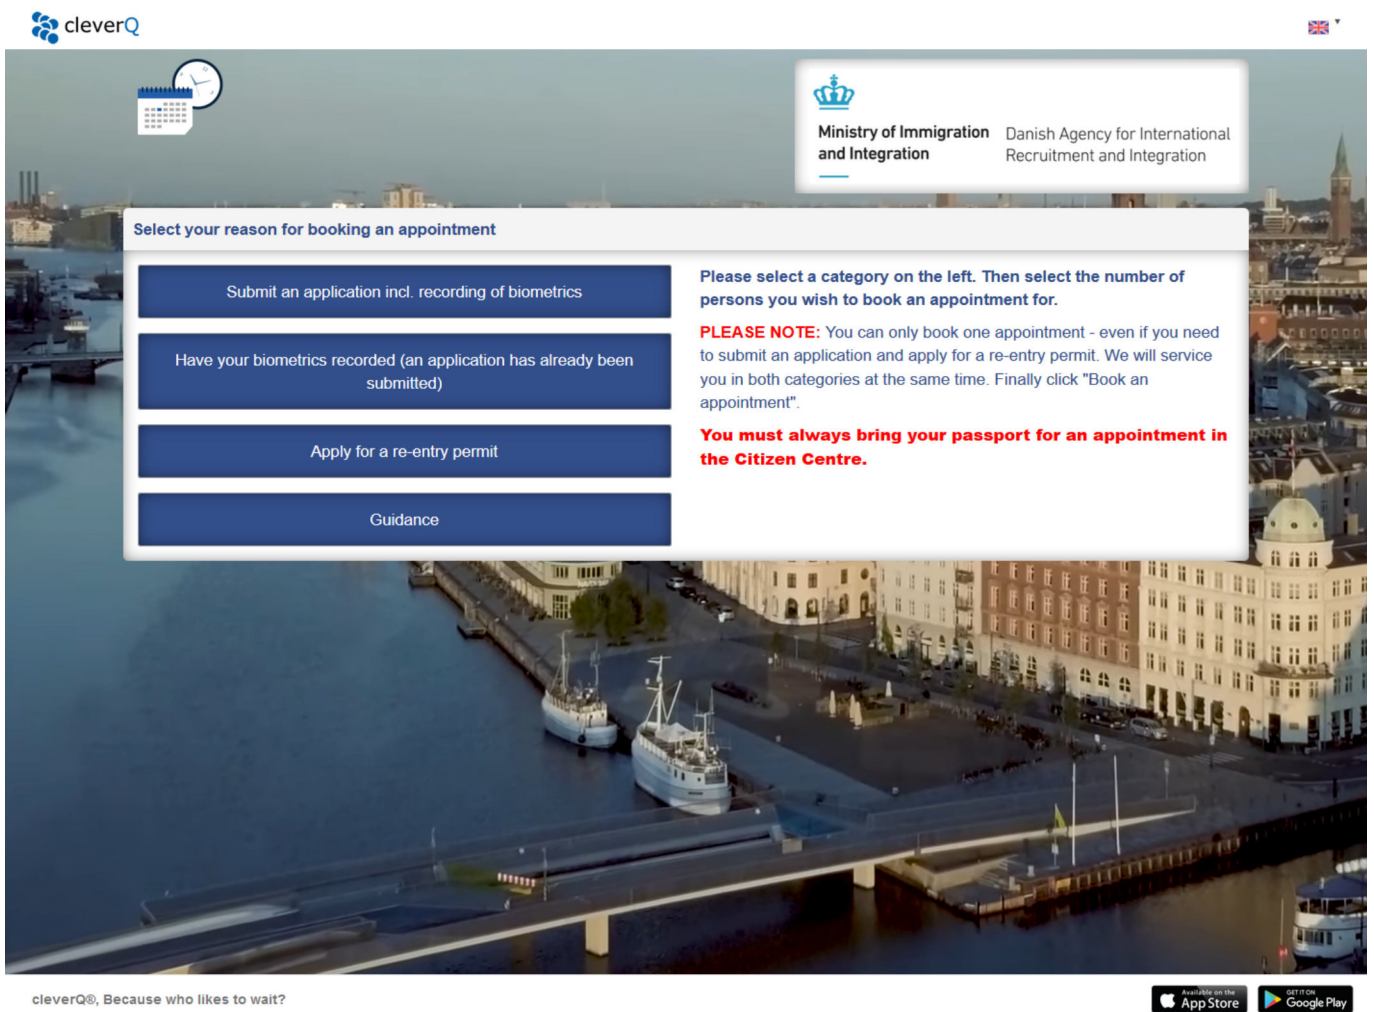

**| Available dates always up to date**

**| Cancel appointments easily**

## cleverQ appointments via webbrowser

If your customers don't have mobile devices or don't want to download the cleverQ App, they still have the possibility to reserve appointments online via all common web browsers.

For this purpose, we set up an online appointment system tailored to your company. This is accessible for your customers like a completely normal web page. There, appointments can be reserved quickly and easily.

Select your reason for booking an appointment

- Submit an application incl. recording of biometrics
- Have your biometrics recorded (an application has already been submitted)
- Apply for a re-entry permit
- Guidance

Please select a category on the left. Then select the number of persons you wish to book an appointment for.

**PLEASE NOTE:** You can only book one appointment - even if you need to submit an application and apply for a re-entry permit. We will service you in both categories at the same time. Finally click "Book an appointment".

**You must always bring your passport for an appointment in the Citizen Centre.**
