On-Site Arrival Management Appointment Booking

Suppliers, carriers, and vendors can book time slots before arrival to prevent bottlenecks at loading docks.

A unique QR code is generated for each appointment, which can be used for on-site verification, gate access, or entry to restricted areas such as designated parking spots.

Smart Queuing

Provide digital waiting tickets on site via QR codes.

After scanning the QR code drivers are automatically placed in a digital queue with directions and further instructions.

On call up drivers receive a push message or SMS, providing all necessary information to locate the correct loading dock.

Dynamic On-Site Management

Workforce & Resource Optimization

Dynamic Staff Allocation:

Assign personnel based on real-time demand, reducing idle labor costs.

Shift Management:

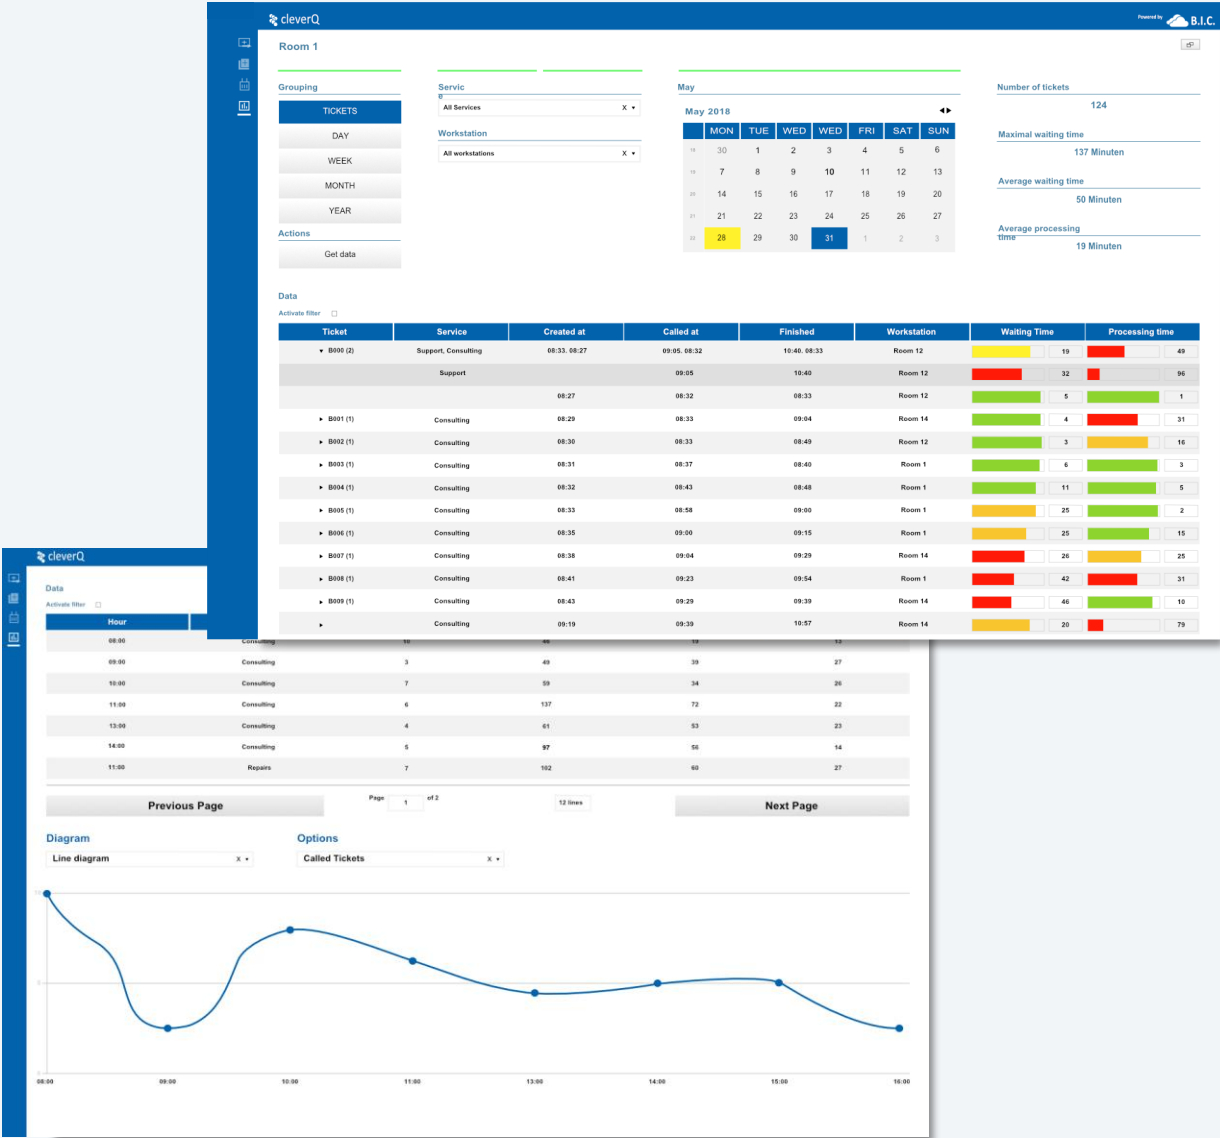

Optimize employee schedules to align with peak warehouse activities.

Real-time Visibility & Analytics

Live Monitoring:
Track incoming and outgoing shipments with estimated wait times.

Performance Metrics:
Generate insights on dock utilization, carrier punctuality, and operational bottlenecks.

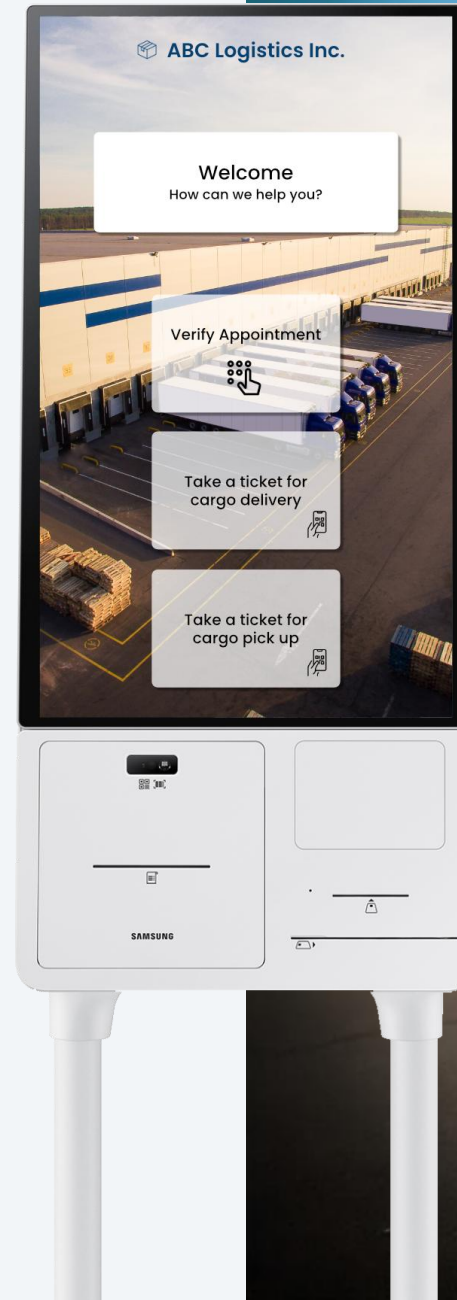

Improved Compliance & Security

Digital Visitor Management:

Log and verify visitor access
(e.g., truck drivers, contractors)
through self-service kiosks.

Automated Alerts:

Notify security teams of
unauthorized or delayed entries.
