Premium POS Terminals

Partnertech CLEO 14 | ALFRED PS137

Versatile terminals suited for high-impact use cases across retail, food service, and healthcare.

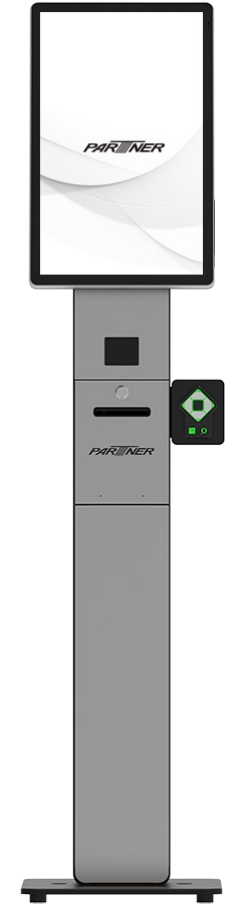

CLEO 14 for counter-based workflows, tight spaces, staff-assisted service.

ALFRED PS137 to start queues earlier, guide foot traffic, and maximize visibility.

CLEO 14

ALFRED PS137

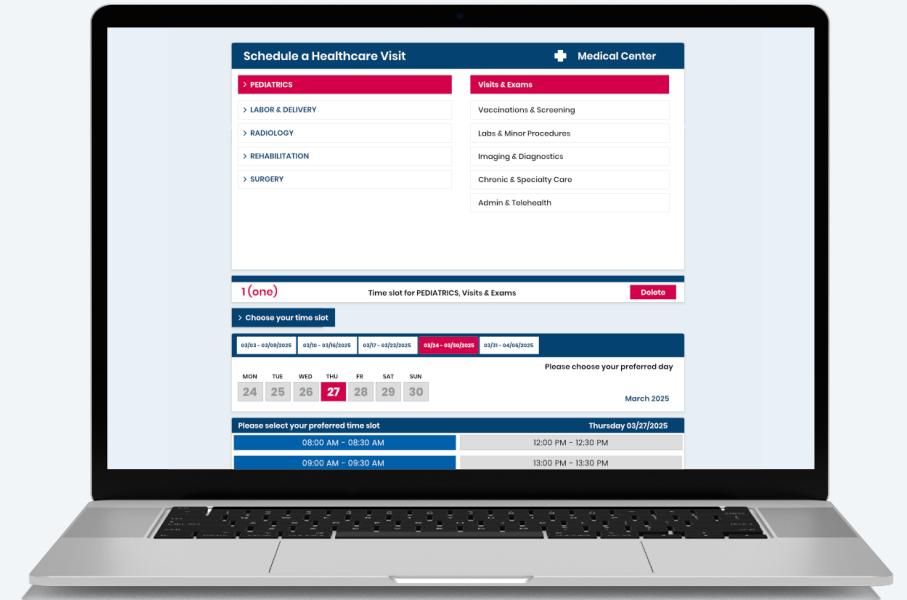

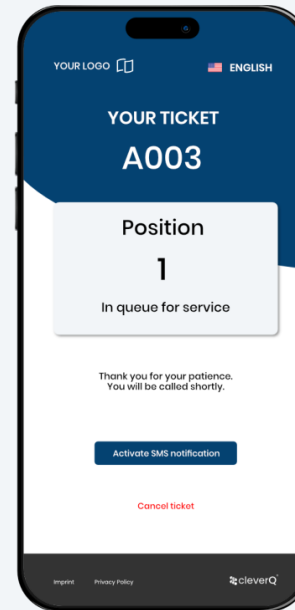

Professional Customer Flow Software

cleverQ SaaS

cleverQ provides a unified solution for a modern Customer Journey across multiple verticals.

Seamlessly integrates with PartnerTech (CLEO 14 & ALFRED PS137) to deliver plug-and-play systems, including:

Queuing, Appointment Booking, Image Slide Show, Analytics, CSAT surveys and many more.

Combined solution

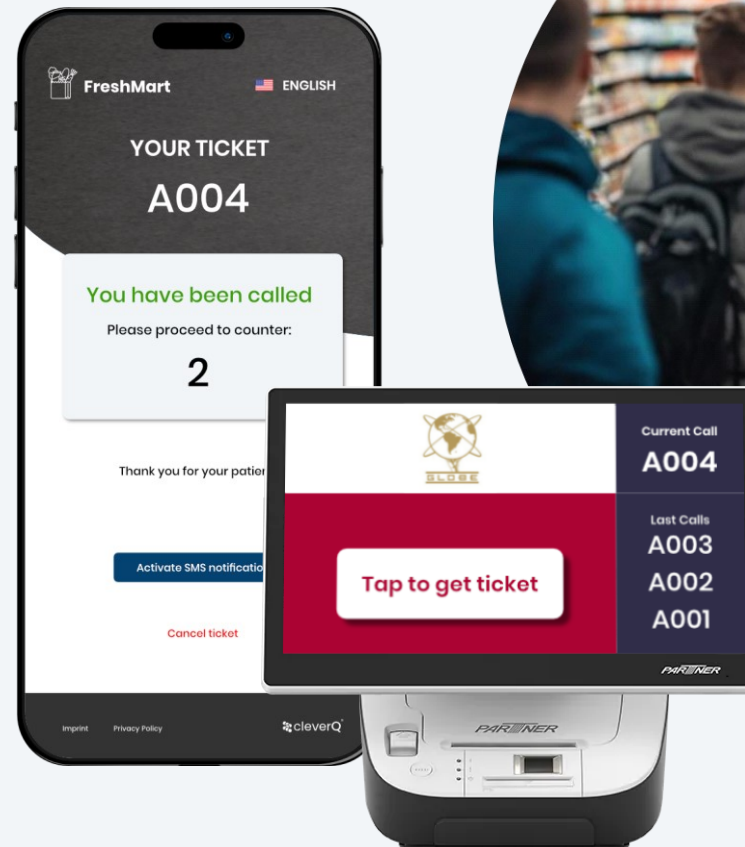

Verticals

Verticals	Example use cases
Grocery Stores	Deli/bakery/meat/fish counters; pickups & catering; wait-time displays
Convenience Stores	Peak-time queues (lottery, parcels, coffee); POS-integrated call-ups
Walk-In Clinics / Urgent Care	QR walk-in registration; smart triage; visible wait times
Hospitals / Medical Centers	Reception/radiology/lab/pharmacy flows; analytics & compliance Das zu Karten machen

Grocery & Convenience

Publix, Whole Foods, REWE, EDEKA, Gas stations, 7-Eleven, mini-marts etc.

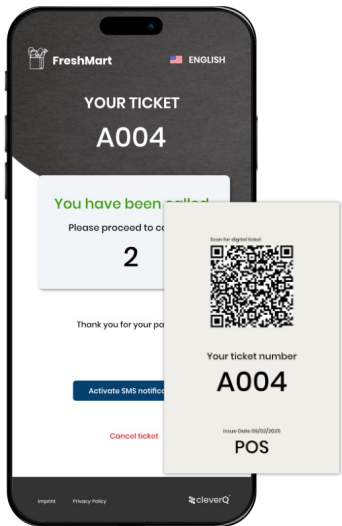

- Peak-time control: structured queues for deli, lottery, parcels, coffee
- Faster flow: POS-integrated call-ups; less checkout congestion
- Pickups & catering: appointments, reminders, QR check-in
- Visible waits: wait-time displays + promo signage
- Staff relief: clearer workflows, fewer disputes
- Insights: wait times, throughput, peak hours, service KPIs

Grocery & Convenience

Publix, Whole Foods, REWE, EDEKA, Gas stations, 7-Eleven, mini-marts

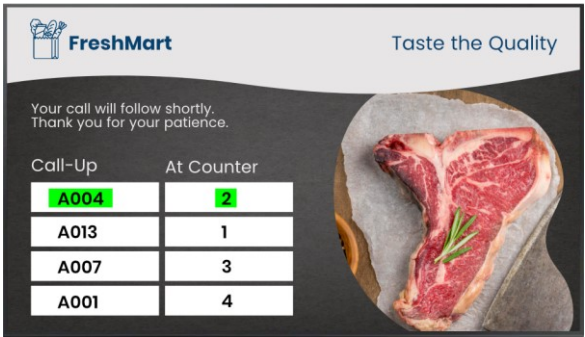

Issue digital or printed tickets

Customer- and Staff-Facing Setup

Queuing Screens & Image Slide Shows

Alternative Call Up with buttons

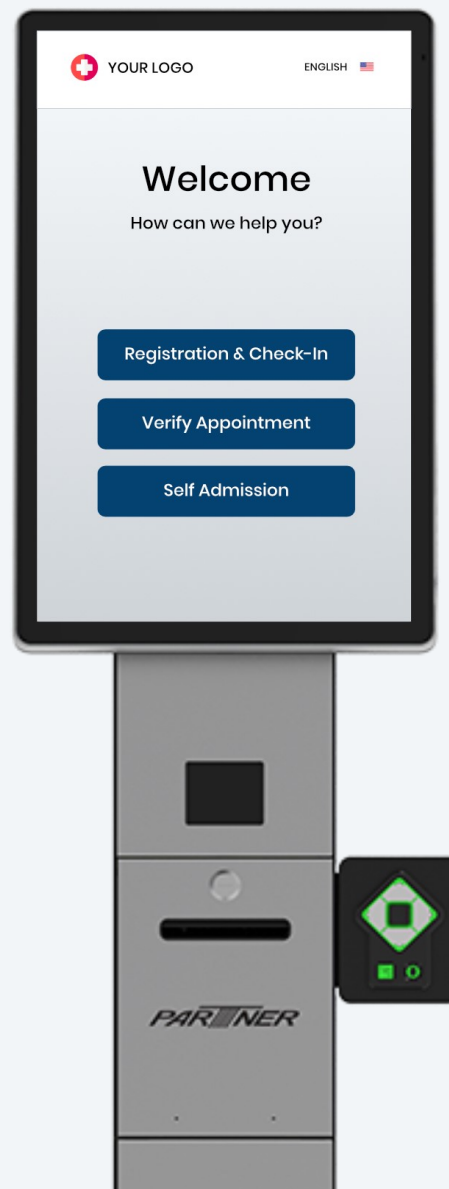

Benefits for Grocery & Convenience

- **Faster service & peak-time control:**
structured ticketing/call-ups for deli, coffee, lottery, parcels
- **POS/display integration:**
smoother checkout, less congestion
- **Keep shoppers in-store:**
visible wait times reduce walkaways; larger baskets
- **Seamless pickups & catering:** appointments, reminders, QR check-in
- **Staff relief:**
fewer disputes, clearer workflows at counters

Walk-In Clinics & Urgent Care

- Digital ticketing (Walk-In Registration): Patient pulls a QR ticket or scans an insurance card
- Automatic prioritization by urgency, appointment status, or patient type
- Wait-time display on in-clinic monitors and in the cleverQ Digital Wallet
- SMS notifications when it's the patient's turn
- Reduced crowding and improved patient experience

Check the conditions that apply to you or any member of your immediate relatives:

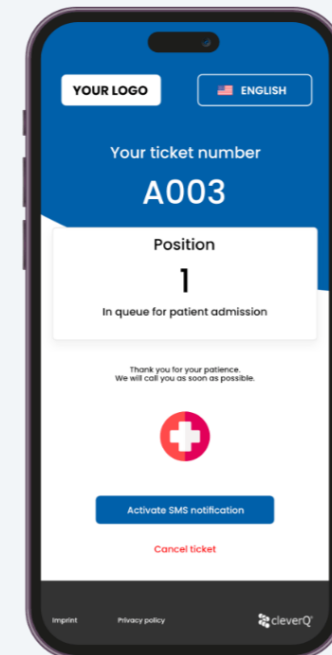

☒ Asthma	☒ Cancer
☒ Cardiac disease	☒ Diabetes
☒ Hypertension	☒ Psychiatric disorder
☒ Epilepsy	☒ Other

Check the symptoms that you're currently experiencing:

☒ Chest pain	☒ Respiratory	☒ Cardiac disease	☒ Cardiovascular
☒ Hematological	☒ Lymphatic	☒ Neurological	☒ Psychiatric
☒ Gastrointestinal	☒ Genitourinary	☒ Weight gain	☒ Weight loss
☒ Musculoskeletal	☒ Other		

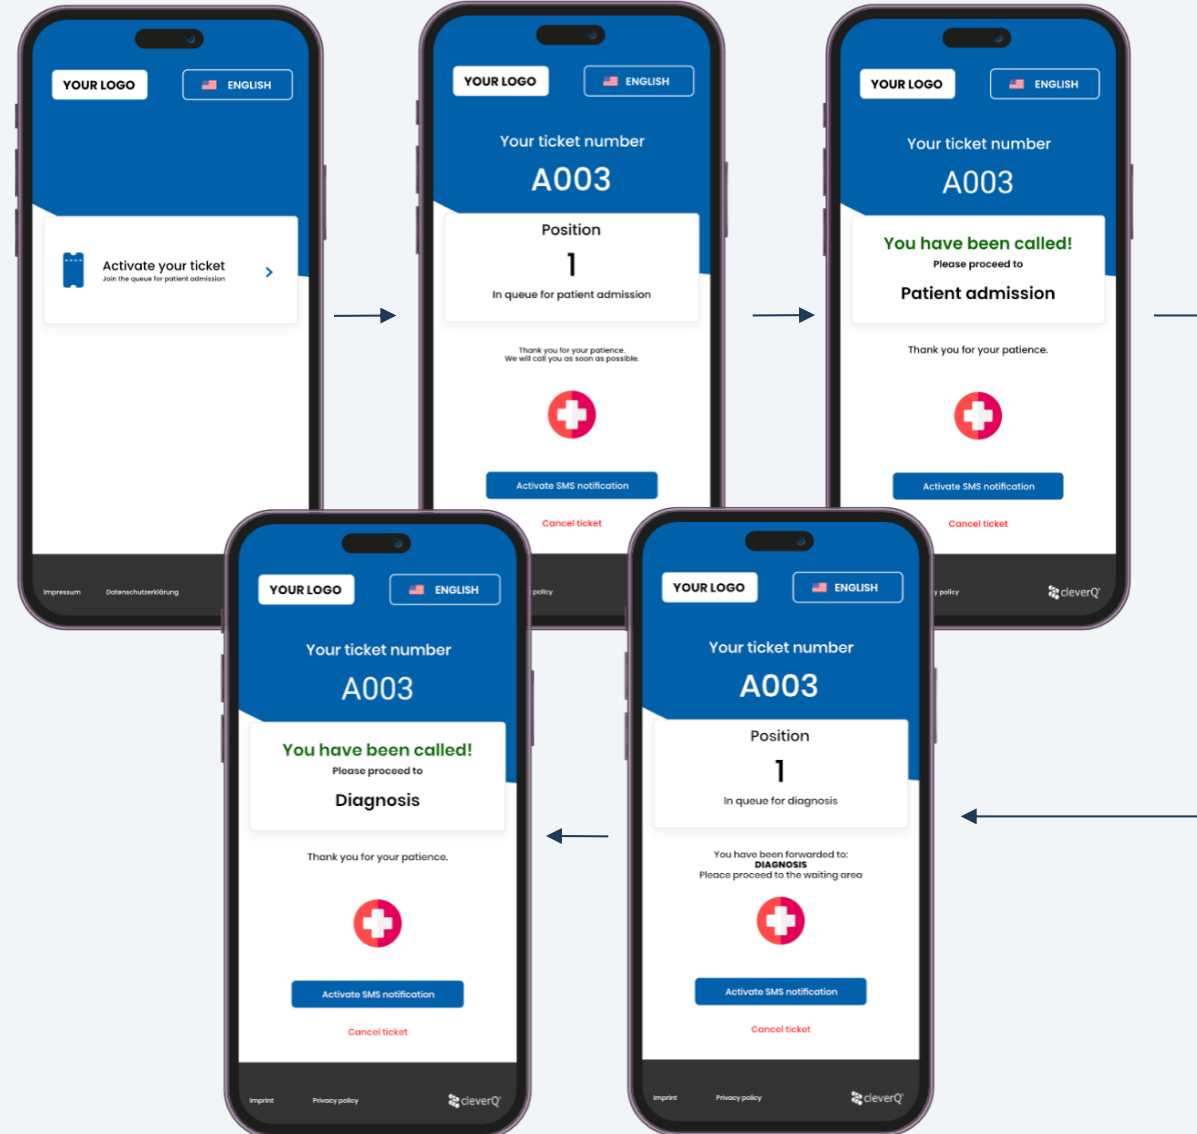

Are you currently taking any medication?
☒ Yes ☐ No

Please list them:

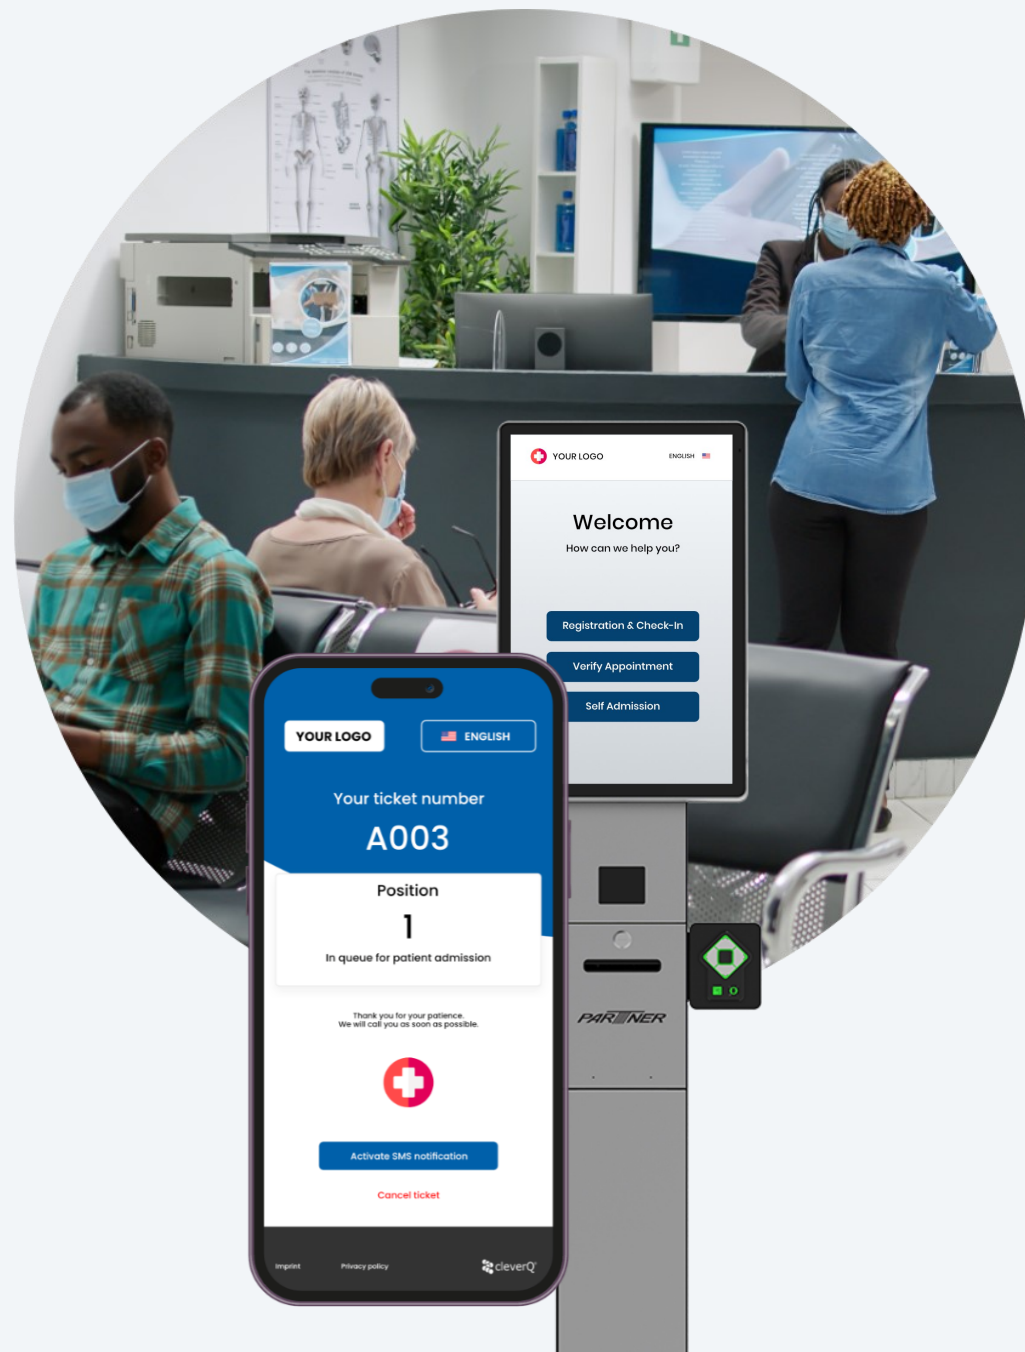

Hospitals & Medical Centers

- **ED / Outpatient departments:**
patient routing across multiple treatment rooms
- **Radiology / Lab / Phlebotomy:**
appointment booking + queue call-ups
- **Reception / Admissions:**
combined appointment and walk-in management
- **Pharmacy / Discharge / Payment counters:**
shorter waits with on-screen status displays
- **Analytics & BI:**
throughput, wait times, no-shows, and peak-hour insights

Benefits for Healthcare Sector

- **Greater efficiency:**
more patients served with the same resources
- **Staff relief:**
less manual coordination, fewer complaints
- **Patient satisfaction & safety:**
structured, transparent processes
- **Compliance advantages:**
privacy-first flow (no names called—QR numbers only)

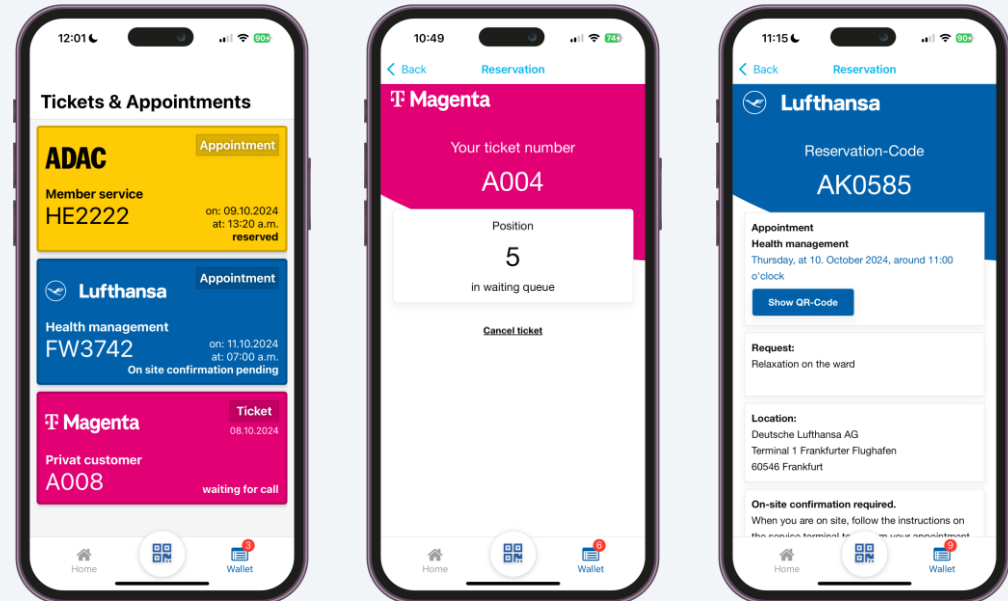

cleverQ Digital Wallet

Cross vertical value with tickets and Appointments in one central hub.

Scan once, save as favorite, book next time in seconds. Manage multiple locations in one list.

Free on Android and iOS.
